SEP 28 1954

MEMORANDUM FOR: Colonel White

SUBJECT : Comments on Memorandum from AD/P, dtd 28 Sept 54  
in re: "Comments on Procedural Handling of  
Agency Overseas Returnees."

25X1A9a

25X1A9a

1. This memorandum sheds only one new ray of light on the case of Miss [REDACTED] with which we have become familiar. Mr. Reynolds points out that in going through Central Processing Branch on 2 March 1954, as she returned from the Far East for "medical and security reasons," Miss [REDACTED] had an interview with the Security Office representative assigned to CFB. Mr. Reynolds points out that this gentleman's own office apparently had not cut him in on the circumstances of the case, further highlighting the wretched liaison that went on throughout the entire matter.

2. The whole tone of the memorandum is one of rather continued exception to the "unilateral action of the FE Division in this case," and the memorandum's conclusion; i.e., that a strong "policy statement" will be the best medicine, seems to indicate that Mr. Reynolds does not plan to take the matter up directly with COA/DD/P, but rather is suggesting that the next move is up to us, from which the Office of Personnel might benefit in the future.

25X1A

3. You may feel that enough dead coals have been stirred up in this case; if so, I do not think a positive answer is required, since I assume you have discussed this matter with Col. [REDACTED] personally. On the other hand, you may feel that our responsibilities under [REDACTED] require some formal statement of our position. Our suggestion that Personnel might improve their position on similar cases by getting in on RYBAT cable distribution appears to have been flatly rejected by Personnel.
